

All of the below precautions are subject to change as more information and guidelines around events and lacrosse game play are released. We will continue to update the below information on a weekly basis so all participants and attendees can be as prepared as possible heading into all of our team and individual events.

At Risk Groups

- Individuals who are more at risk of contracting / complications from covid-19 should not attend any of our summer 2020 events including those over 65 and with any current medical conditions.

Symptoms

- If on the morning of any event, tournament or showcase, you are showing symptoms (coughing, sneezing, fever, don't feel well etc.) or if in the 14 days leading up to an event, tournament or showcase, or have been in contact with someone who has tested positive for COVID-19, PLEASE STAY HOME.

Water Availability

- Water filling stations, and central water sources will not be provided on site by PrimeTime Lacrosse. Please be sure to bring your own water bottles and players and event attendees are encouraged not to share water at any point during events.

Off Field Event Format Changes

- Players are encouraged to attend with only 1 parent or guardian whenever possible
- Whenever not on field, players and their families are encouraged to practice social distancing and stay 6 feet away from other event attendees at all times

- Players and families should all practice good preventative measures leading up to and throughout the event including washing hands with soap, and using hand sanitizer whenever soap and water is not available. Avoid touching surfaces such as railings, countertops, doorknobs and other frequently used surfaces. Avoid touching the face, mouth and eyes.
- We will be working alongside our venues to provide ample hand sanitizer options throughout the facility
- There will not be a vendor area, and teams will not be allowed to set up team tailgate areas like in years past. Players and families are encouraged to bring their own drinks and snacks
- The majority of teams and games will be played back to back with roughly 10 minutes off in between. With that said, everyone is encouraged to wait in their cars if there are off periods without games to limit the total number of people walking around the facility at any one time
- Players and their families are required to wear face coverings whenever they are not in equipment and playing lacrosse and especially when around other event attendees in high traffic areas such as pathways between fields, travelling to and from parking lots, and around any facility restrooms.

Game Play and On Field Event Format Changes

- Teams will play 4 games and be done at the event. There will not be playoffs to avoid having teams waiting around for scheduling and seeding updates.
 - Scheduling in this way is done to have teams on site for as few total hours as possible between the two days of the event
 - Everyone will now know their exact schedule for all games for the duration of the tournament ahead of time
- No handshake lines or fistbumps following games

College Coaches and Recruiting

- Many college coaches have let us know they either won't be travelling to events this summer, or are unable to do so due to new NCAA rules on recruiting dead periods. While many coaches have let us know they will still be attending our events this summer, we will also be sending out raw game film of every high school game to all NCAA, NJCAA, and MCLA coaches to view following the completion of each tournament.

Again, all of the above precautions are subject to change as more information becomes available and please don't hesitate to reach out with any questions!
